Dear Kimberly,

While it is still fresh in my mind, I wanted to tell you what a wonderful job you did on the Harvard Class of 1955 mini-reunion in San Diego. From your initial proposal to taking the last night group picture on the Hornblower, your attention to detail and personal service was outstanding.

It goes without saying that we couldn't have done it without you. Moreover, I am convinced that you not only provided our event with special touches that we could not, but saved us money as well.

In net, I would unhesitatingly recommend you and your service to anyone who wants to stage a worry free, first class event. Feel free to use me as a reference.

Robbie joins me in thanking you for all that you did to make our reunion a smashing success.

Best Regards,

Walter Bregman
